Subject: Re: [External] PSC March 23 public hearing on Solar Energy

I just realized that my opportunity to speak is not until nearly ~~midnight~~ tonight. I don't think I can make it that long. May I simply register my opposition to any change in the terms under which we have benefited from our use of household / rooftop solar energy these past few years?
 Here are my notes:

DON DOYLE FOLLY BEACH SC

My wife and I have lived in SC for many years

We taught history at the university of SC in Columbia.

When we retired we decided to retire in Folly Beach.

Our house has good exposure to all that wonderful sun.

Tone Nichols of Tablerock Technologies, a small SC company, installed 24 panels on our roof

SC tax credits PLUS federal tax credits paid for over half the installation cost.

Peter McCoy, our representative in the SC Legislature at the time, recently sponsored a new law that give us fair credit for ALL the energy we generate

We have been very happy both with the reduced cost to us

It has improved the value of our home.

Above all, we feel we are doing our part to move SC and the country toward clean renewable energy.

SC has become a leader in the nation when it comes to supporting this transition.

Please keep it that way.

Please do not betray the promise that was made to support homeowner, rooftop solar power.

Please safeguard the benefits the state government promised to homeowners like ourselves

and keep SC a leading example of clean energy for our future.

Good Morning Mr. Doyle,

The Public Service Commission has received your pre-registration to testify in Docket No. 2020-229-E. We will call you at Tuesday, March 23, 2021 around 11:55 p.m. for you to deliver your remarks.

Please be aware that the Commission may call you at any time after the beginning of the hearing. The Commission will only attempt to reach you three (3) times.

Thank you,

PSC Communications

I want to participate in the public hearing on solar energy for homeowners on March 23.

I would like to speak on behalf of protecting the existing benefits of rooftop solar in SC.

I understand you will telephone me when it is my turn. Will you be able to predict at what approximate time during the day I should expect your call?

If not, I'll stand by.

Don H. Doyle
